DETAILED ACTION

1. This Office Action is the answer to the IDS received on 5/06/2004.

Status of the claims

2. Claims 1-21 are pending.

Drawings

3. This application has 11 sheets of formal drawings; they are accepted by the examiner.

Allowable Subject Matter & Reasons for Allowance

4. Independent claims 1, and 11 are patentable over the references of Farthing et al. "Device for determining relative angular position between a spacecraft and a radiation emitting celestial body" because this reference does not disclose a navigation system utilizing sources of pulsed celestial radiation comprising:

- displaceable receiver means for detecting signals generated by a plurality of sources of pulsed celestial radiation, each said source having a known position with respect to a reference point in an inertial reference frame; and processor means for computing navigational data based upon a calculated distance between said displaceable receiver means and said reference point and said known positions of said sources of pulsed celestial radiation.

5. Dependent claims 2-10, and 12-21 are allowed because they are dependent on claims 1, and 11.

Conclusion

6. Claims 1-21 are patentable.
7. Any inquiry concerning this communication or earlier communications from the
